Top Skills

Research Skills

Machine Learning

Data Structures and Algorithms

Honors-Awards

Bronze Medal - Mathematical Young
Talent Search - Grade 10

5 x Excellent Student Awards

5 x Encouragement Scholarships

Publications

Low-Rank Adaptation in Multilinear
Operator Networks for Security-
Preserving Incremental Learning

Duc Nguyen

RA-AI-@VinUni, ex-Resident-@Qualcomm

Hanoi Capital Region

Summary

Passionate about Machine Learning research

Experience

VinUniversity

Research Assistant

March 2026 - Present (5 months)

Gia Lâm

Qualcomm

AI Research Resident

April 2025 - February 2026 (11 months)

Gia Lâm

- Research topic: Continual Learning
- Applied research projects: GenAI Efficiency
- 1 first-author patent (pending), 2 co-author publications at ICLR and CVPR

VinAI

AI Research Resident

August 2023 - March 2025 (1 year 8 months)

Gia Lâm, Hanoi, Vietnam

MotionsCloud

AI Engineer Intern

July 2022 - August 2022 (2 months)

Education

VNU University of Engineering and Technology

Engineer's degree, Computer Networks and Data Communications · (October
2020 - January 2025)

Thai Binh Gifted High School

Specialization: Mathematics · (July 2017 - July 2020)
